

Class - 12

SUBJECT	HOME WORK
MATH	Solve the questions from Matrices and Determinants chapter from :Previous year Questions.
BIOLOGY	Prepare a PPT on polycystic Ovaries. Practice the diagrams of the reproduction chapter each 3 times.
PHYSICS	Complete the exercise part from the electric charges & fields chapter. Complete the worksheet provided. Make an investigatory project from any of the following topics: 1.To study various factors on which internal resistance /EMF of a cell depends 2. Use LDR to study the variations of current. 3. To study the refractive indices of water, oil using plane mirror, convex lens and an adjustable needle. 4. To estimate the charge present on each of the two identical Styrofoam balls suspended in a vertical plane using Coulomb's law.
ENGLISH	Complete the Advertisements of all types(classifieds) and all prescribed written discourses
CHEMISTRY	Prepare a PPT on Chemistry in black and white photography. To Study the Polymers and Its Types, Uses, and Properties and Prepare an assignment on it.
I.P.	Prepare a ppt on Python basics.
