The school has incorporated electronic devices like smart boards and tabs into the learning environment, wherein a physical classroom extends into a digital space. The tone is set by technology where students and teachers stay connected. Sharing videos, worksheets, presentations and conducting Daily Practise Tests through tabs, have made access to content and especially teachers at ease.

Keeping the legacy of making education an interesting platform and to create scientific temper, SVIS has established Atal Tinkering Laboratory, a workstation where children will be able to work with the latest technologies and tools like Robotics, electronics, sensors, open-source micro-controller boards, 3D printers etc., to understand the concepts of STEM and to create technology innovations.

Every person in the school drops everything and picks a book, devoting a good 80 minutes of time per week for reading, a step towards transformation of petty readers into voracious readers.

To create a thirst among students and to appreciate them for their little effort towards inculcating reading as a habit, the Chairman Dr M Mohan Babu garu has come up with "GRAB A BOOK, GORGE A CAKE". Every student who reads 3 books a month and writes reviews of the books is appreciated with a voucher which can be redeemed at one of the finest bakers in Tirupati – Manasa Cakewala. Many students have been appreciated for their interest in grabbing books and gorging cakes!!
