

## Inauguration of Herbal Garden at SVIS

The Herbal Garden was inaugurated on the 24th of November 23 by Mr Vinay Maheshwari, the Executive Director of SVET & Mohan Babu University.

The Herbal Garden at SVIS is not just an effort to grow plants, but to teach children about herbs and medicines through growing with love and interest. This is a place where herbs are grown to heal the hurt made to Mother Earth.

The students were appreciated for their effort which not only brought beauty to the campus but gave a message of how Mother Nature must be taken care of.
